Tips

- (a) If you are having trouble with a strata address, don't include the unit number. Insert just the building street address, and a list of unit numbers will then be displayed.
- (b) If you receive an error, check the following:
  - (i) Is the address numbered and spelled correctly?
  - (ii) Have you added the street "type" in the "street name" field? If so, remove the street type from this field.

- (iii) Did you enter the correct suburb? Complete a quick google search for the address to ensure the correct suburb has been entered.
- (iv) Did you enter the correct postcode? Complete a quick google search for the address to ensure the correct postcode has been entered.

On this page, you can also choose to order (if available from Council) a s.22D swimming pool compliance certificate.

If the client can't show that the swimming pool is registered or you otherwise doubt whether the pool is regulation compliant, we recommend that you DO NOT ORDER a s22D certificate but instead separately arrange a s.22C pool inspection.

The final email contains the full set of contract documents provided by REI QuiContract:

# 7. Does REI QuiContract provide all prescribed documents?

REI QuiContract supplies all prescribed documents other than Home Building Act documents.

If your client has a swimming pool, REI QuiContract will supply a s.22D compliance certificate but, if your client's pool is not registered or you otherwise doubt whether it is it is regulation compliant, we recommend that you DO NOT ORDER a s22D certificate but instead separately arrange a s.22C pool inspection.

REI QuiContract will significantly expedite preparation of a sale contract. REI QuiContract documents are supplied in collated contract form for ease of review and, at the same time, are also supplied individually to facilitate inclusion of any other requirements such as a home warranty insurance document and your special conditions.

If you don't have an Adobe PDF Editor software licence, we recommend you purchase it, because so many contracts are now being prepared electronically and this software makes it so easy to create, edit, add and collate PDF documents. If you don't have the software, just print the document out and work with it manually.

### 8. **REI QuiContract benefits for you**

#### (a) Avoid upfront costs

If the client or agent has already ordered the sale contract documents through REI QuiContract, you don't have to worry about obtaining search costs upfront from your clients or, worse still, wear these costs yourself until settlement.

If you order through REI QuiContract, you can request clients provide their credit card details and have the costs charged to them directly.

#### (b) Expedite standard searches

If the client or agent has already ordered the sale contract documents through REI QuiContract, you avoid this unprofitable time consuming exercise and get on with just the legal work.

If you order searches through REI QuiContract, you'll find the process easier than through any other search provider.

#### (c) Reduce risks of fixed fee quotes

Increasingly these days, you're expected to quote a fixed fee before a client commits to your services.

If the client or agent has already ordered through REI QuiContract, all the usual title searches and dealings are available to review before a quote has to be given.

If you order through REI QuiContract, you will (for a cost of just \$10 per title search) see how many dealings are required and how much it will cost to order them before committing yourself or clients to any further costs.
